

SAFE STREETS FOR ALL ACTION PLAN

CHIKAMING TOWNSHIP
Chikaming Township, MI

BUSINESS LINE(S): **URBAN & RURAL PLANNING** | **GRANT SERVICES**

OVERVIEW

Chikaming Township faced persistent roadway safety issues, with more than 700 crashes between 2019–2023 concentrated on high-volume corridors like I-94 and Red Arrow Highway. Seasonal tourism and limited pedestrian/bicycle infrastructure compounded risks for residents and visitors. With support from the federal Safe Streets and Roads for All (SS4A) program, Antero Group led the creation of a comprehensive Safety Action Plan. The Plan combines crash data analysis, the Safe System Approach, and community engagement to chart a path toward Vision Zero and position the Township to secure future funding.

SCOPE OF SERVICES

- ✓ Community Engagement
- ✓ Transportation Safety & Crash Analysis
- ✓ High Injury Network Development
- ✓ Cost Estimation & Funding Strategies
- ✓ Policy & Program Recommendations

OUTCOMES

- ✓ Identified High Injury Network corridors and intersections.
- ✓ Prioritized capital projects such as Red Arrow Highway reconfiguration and Sawyer Road trail.
- ✓ Developed phased near-, mid-, and long-term safety strategies.
- ✓ Equipped Township with cost estimates and a funding matrix to pursue grants.
- ✓ Produced a clear, actionable roadmap to improve safety and mobility for all users.
